

REVIEW COMPLETE

Your presentation has been reviewed by Snowflake.

- **Snowflake Edits:** If you notice that some of your content has been updated, it is to ensure alignment with Snowflake positioning, branding and, in case you are a Snowflake employee, legal requirements.
- **Finalized Decks:** We ask that you do not make substantial changes to your presentation at this stage.

Thank you for your cooperation and understanding.

We are excited for your session at Snowflake Summit 26!

AI-POWERED R & PYTHON DATA SCIENCE YOU CAN ACTUALLY TRUST

AGENDA

- **The Problem / Context**
- **Demo**
- **Takeaways**

FROM SNOWFLAKE TABLE TO TRUSTED DECISION

A data scientist opens a Snowflake table.

Hours later, her data product is in front of a VP making a decision

For that decision to hold up, it took:

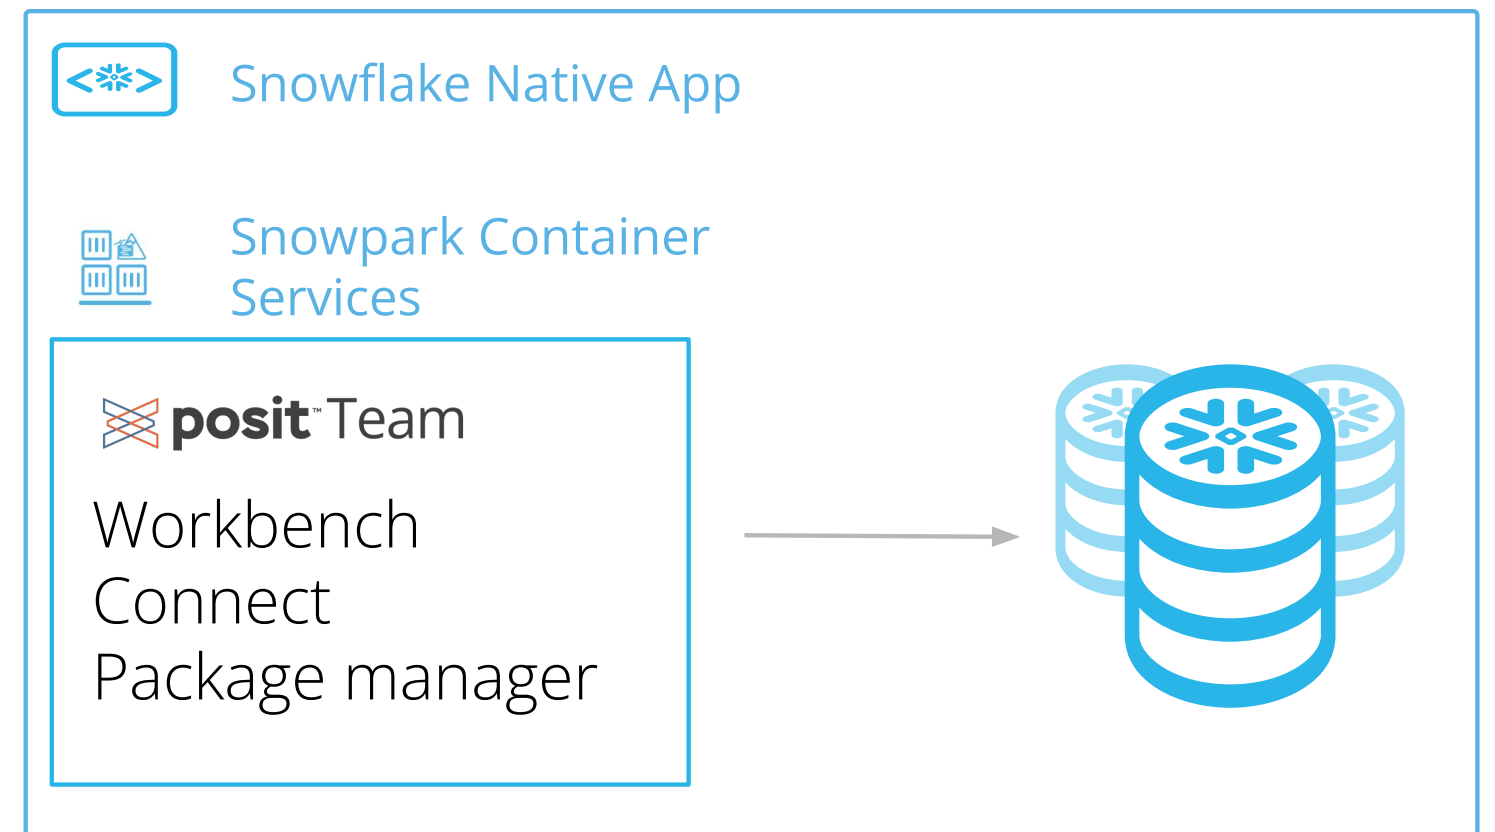

- a) Analytical collaborator with calibrated autonomy:** data science agent that knew when to lead, when to ask, and when to use the methods your team already trusts
- b) Dynamic data product:** answered the VP's follow up questions live - composing new plots on the fly, governed by her access
- c) Trust end-to-end:** everything code-backed, everything reproduces

POWERED BY POSIT TEAM NATIVE APP

- Millions of Weekly Users
- Code-backed
- Open-source foundation

Posit Team Native App

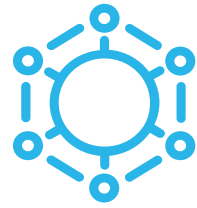

- Inside your Snowflake account
- Cortex LLMs out of the box
- R + Python, both first-class

DEMO - Chapter 1 (Data Scientist workflow)

DEMO - Chapter 2 (End User Interaction)

TAKEAWAYS

Trust baked-in, not bolted-on

ANALYTICAL COLLABORATOR

Data Science Agent that knows when to lead, when to ask, and when to zero-shot.

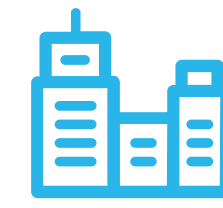

Calibrated Autonomy

DYNAMIC NL VISUALIZATIONS

End users ask questions. Charts **compose on the fly** - grammar of graphics, not pre-built widgets.

Governed by their access

TRUST END-TO-END

Code-backed. **Reproducible.** No black boxes. Your **team's validated methods** - every run

COME SEE US

Posit Team Native App runs inside your Snowflake account. Your data never leaves your perimeter.

30-DAY FREE TRIAL

- Install Posit Team from Snowflake Marketplace.
- Select “Free 30-Day Trial” during onboarding.

COME SEE US

- Booth **#2804**
- Live demos throughout Summit
- Come with your hardest data science questions - we love them

LET US KNOW WHAT YOU THINK!

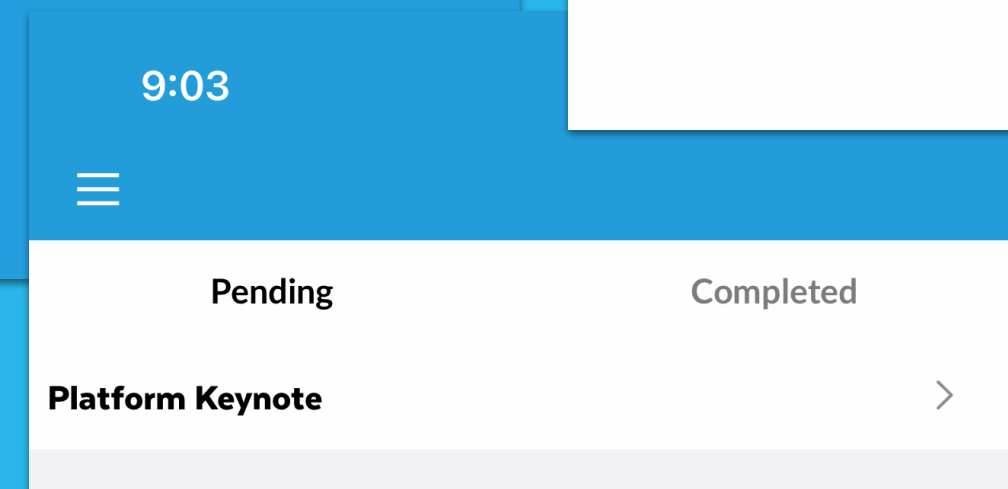

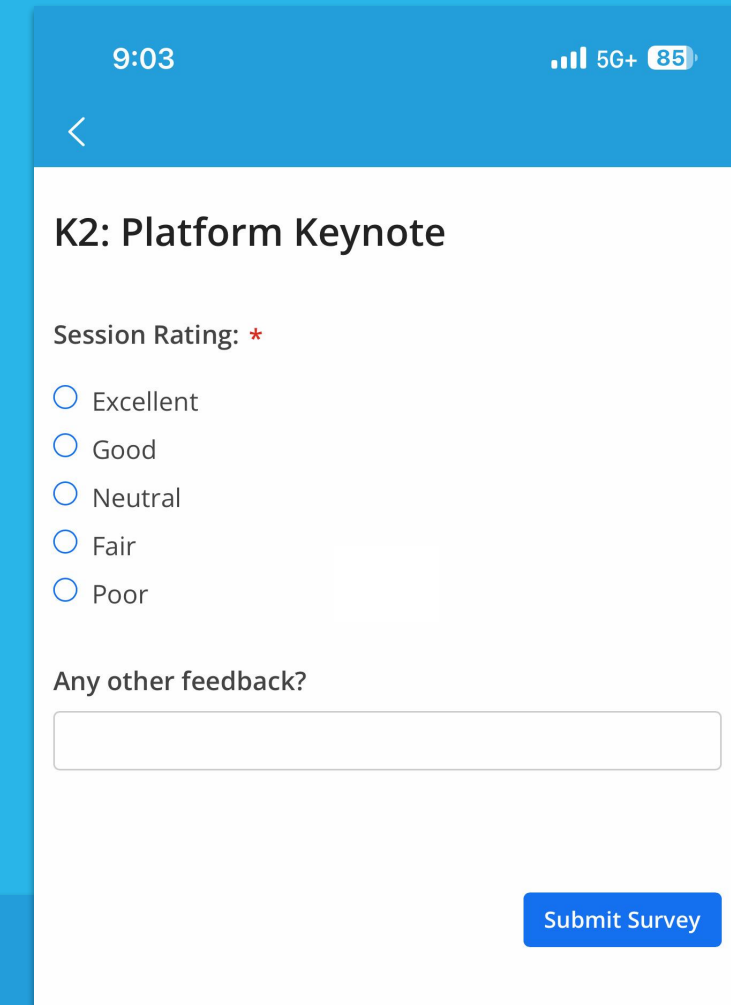

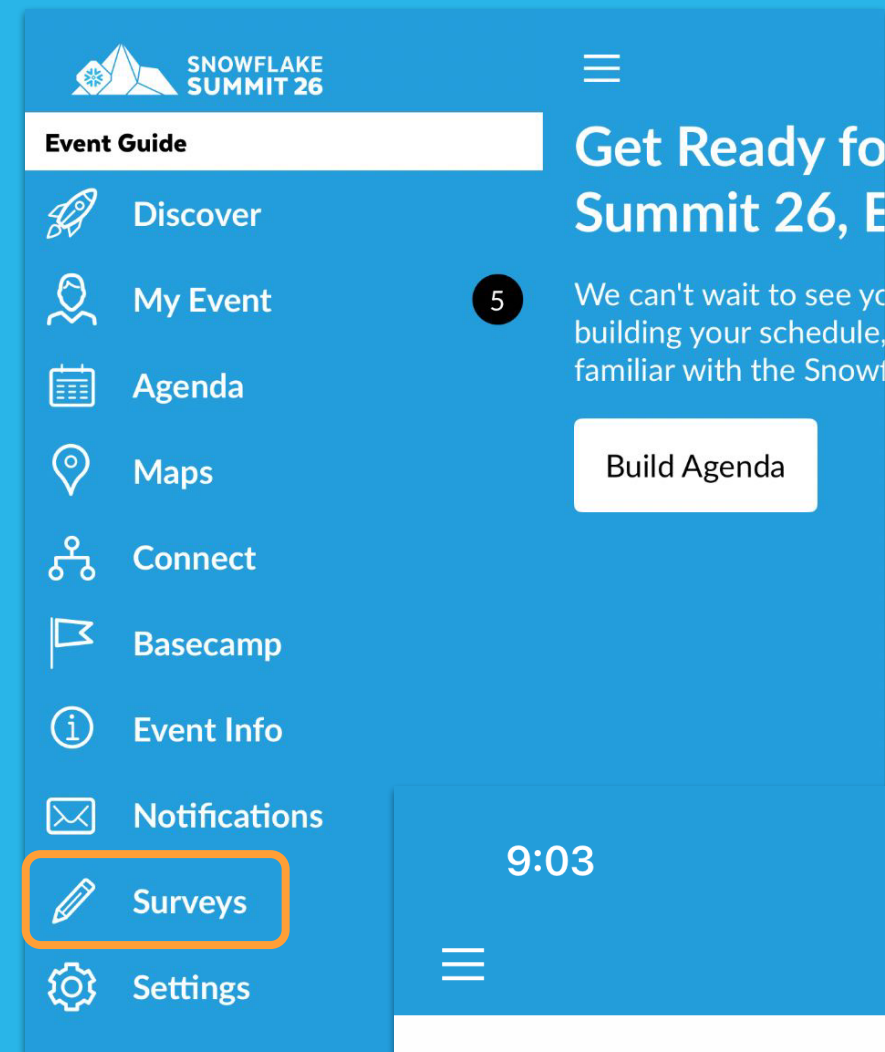

Please take a minute to rate this session.

01 Go to the **menu** at the top left corner in the Snowflake Summit app.

02 Click on **'Surveys'** on the left navigation bar.

03 Select the session you want to rate.

04 Submit your rating and leave us feedback!

THANK YOU
